Subject: Microsoft Settlement

I am writing to voice my displeasure with the proposed judgment against Microsoft in the US vs. Microsoft antitrust lawsuit.

I agree with the thoughts of many of the opponents of the settlement including Ralph Nader and Thomas Reilly, my home states AG. The settlement leaves far too many loopholes for Microsoft to continue in its anti-competitive practices and offers no more then a slap on the wrist for their past indiscretions.

I firmly believe that Microsofts actions warrant a harsher, more restrictive punishment or there will be no actual changes in the way they do business.
